KUPOLE //

MADE Retail Systems is an Australian owned manufacturer and distributor of shopfitting and fixture solutions for the retail industry and mannequins.

With over 25 years of experience, we originally started trading out of a small metal shop in Dandenong and specialised in locally produced architectural and designed solutions. We now have a purpose built office and factory located in Lynbrook, Victoria where we have skilled staff in areas of design, production, warehousing as well as qualified tradesmen. We also have a showroom dedicated to displaying our products in Cremorne, Victoria. In addition to our local facilities we have the capability to manufacture and supply offshore.

Included in our range of products is VISPLAY Retail Systems, a leading brand of high quality modular systems for retail and commercial environments. We are the exclusive distributor of VISPLAY Retail Systems for Australia and New Zealand and carry a selection of ranges in stock. These ranges include Invisible 6 and Invisible 3 profiles, and Mono 20 holder sets along with a selection of merchandising display accessories to suit.

To complement our VISPLAY offer and custom metal fabrication we carry a selection of standard commodity products in stock to cater for retail displays and fitouts. These standard products include our MRS Concealed stripping and the Kupole suspension mounted pole system along with their matching hardware.

In addition to our shopfitting and fixture suites, MADE Retail Systems is the Australian partner for WINDOW FRANCE. With over 30 years in the mannequin industry, WINDOW FRANCE are renowned for designing and producing innovative mannequins of a superior quality.

To complete our retail offer, we have developed the MVM Collection. This range comprises of Visual Merchandising elements to complement in store displays and includes shoe and handbag risers, display platforms and trays.

Whether you are interested in Custom Retail Fixtures, Mannequins or Visual Merchandising Accessories, our knowledgeable retail team are always on hand to assist with your inquiries - feel free to contact us to discuss your needs.

OUR METAL WORK CAPABILITIES

Overview

MADE Retail Systems provide a total solution to your custom Metal Work needs. We have experience in design and manufacture of retail shopfitting and furniture items. We are able to offer a full complement of metal finishes.

Processes

We work with Mild Steel and Stainless Steel tube and sheet metal to create retail displays to suit your specification. Our experienced tradespeople are all highly qualified. We employ strict quality control measures to ensure all items are produced to the highest standard.

Design and Value Engineering

With over 12 qualified metal tradesmen and 3 qualified Industrial Designers on staff we are able to interpret a design concept and make it into a reality. In the process we can improve the design, add value engineering and make it viable. This is what sets us apart from other custom metal fabricators.

Shopfitting

We have extensive experience in the manufacture and design of retail fixtures and shopfittings including wall systems and accessories, racks, brackets and display tables. Over the years we have worked with all the major retailers and shopfitters throughout Australia. Our strength is interpreting a designer or architect's concept and making it into a reality.

Furniture and Related Industries

Our expertise allows us to work with parallel industries such as furniture, signage, commercial and fitness. We have produced items such as high quality table and couch frames and bases, chairs, shelving units, cabin baggage test units and fitness equipment.

Metal Finishing

We are able to finish our custom metal products in a variety of high quality finishes such as polished chrome, satin chrome, powder coating, galvanising, brass plating and satin and mirror polished stainless steel. Working with our selected sub-contractor metal finishers we are able to offer high quality workmanship.

Offshore Procurement

Using our overseas partners we are able to be competitive when it comes to bulk orders and large product runs. We ensure the work is of high quality and timely and can coordinate the entire process right through to roll out stage.

MIDI PUCK RANGE

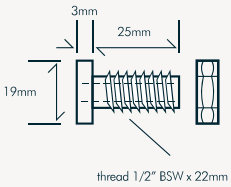
MIDI PUCK



MK-PKMI001

Suitable for mid weight hang sell and accessory items.

Required hole size in panel is Ø 13mm.

Natural Aluminium finish.

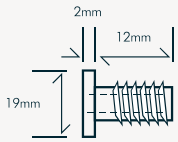
MIDI PUCK

MK-PKMI002

Allows back to back installation of Midi Puck onto panels. Ideal for double sided merchandising of hang sell and accessory products.

Required hole size in panel is Ø 13mm. Natural Aluminium finish.

MIDI PUCK COVER CAP



MK-PKMI100

Threaded cover cap used to conceal Midi Puck. Can be used as a decorative cover, sign or panel holder.

Clear Anodised finish.

MIDI PUCK RANGE

MIDI PUCK – 150MM PRONG HOOK

MK-PKMI101

Midi Puck Prong Hook, 150mm long. Recommended max. weight is 4kg per MK-PKMI103 prong hook.

Ø 10mm Rod with Ø 19mm end cap.

Stainless Steel finish.

MIDI PUCK – 250MM PRONG HOOK

MK-PKMI103

Midi Puck Prong Hook, 250mm long Recommended max weight is 4kg per MK-PKMI103 hook.

Ø 10mm Rod with Ø 19mm end cap.

Stainless Steel finish.

MIDI PUCK NYLON COLLAR

MK-PKMI003

Use with Double Sided Midi Puck when installing into glass.

MIDI PUCK RANGE

MIDI PUCK O-RINGS

MK-PKMIOR

Black rubber o-rings for Midi Puck Prong Hooks when used to hold glass or acrylic shelves.

Sold as a pair.

SPACELINE
CABLE SYSTEMS

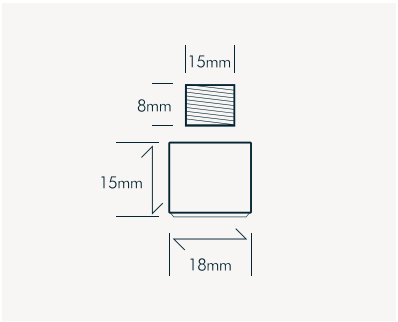
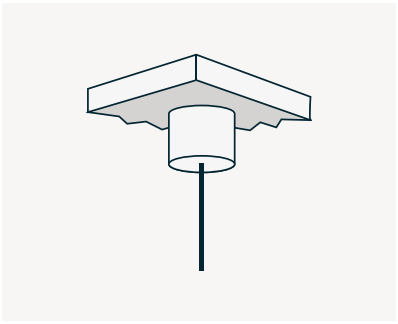
SUITABLE USES

RETAIL & COMMERCIAL WINDOW AND WALL MERCHANDISING, POSTER HANGING, SIGN FIXING, BROCHURES, SUSPENDING TIMBER, GLASS SHELVES & CABINETS.

SPACELINE CABLE SYSTEMS

SPACELINE CEILING CONNECTOR



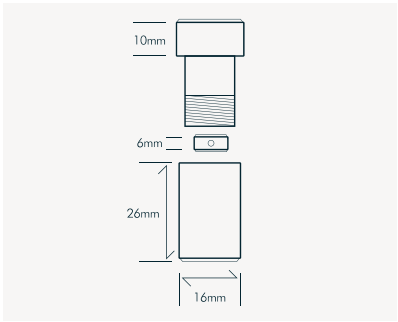


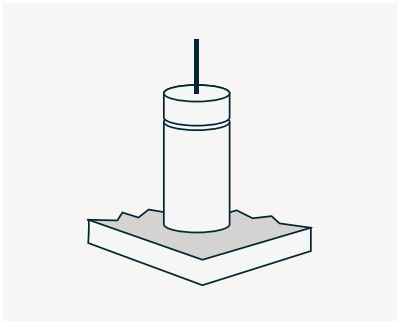
MC-SLCC

Spaceline Ceiling Connector, for fixing cable to ceiling. Does not include screw for fixing.

Brass with a Satin Nickel finish.

SPACELINE FLOOR CONNECTOR





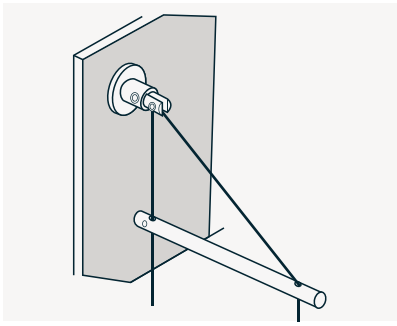
MC-SLFC

Spaceline Floor Connector, for fixing cable to floor. Does not include screw for fixing.

Includes allen key.

Brass with a Satin Nickel finish.

SPACELINE CABLE – 1.6MM



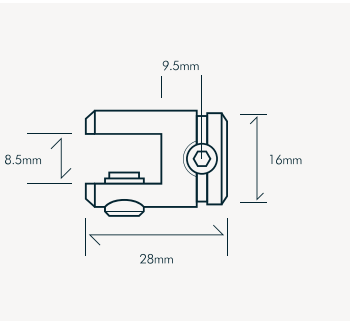
MC-SLC4

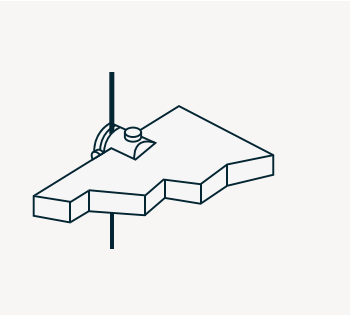
Spaceline Cable – Ø 1.6mm.
Supplied cut and crimped.

Stainless Steel finish.

SPACELINE
CABLE SYSTEMS

SPACELINE
SHELF GRIP





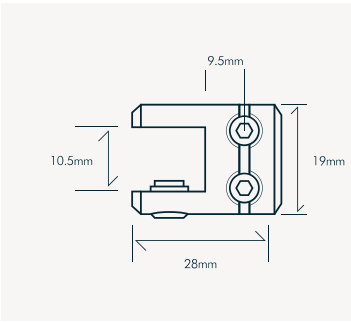
MC-SLS2

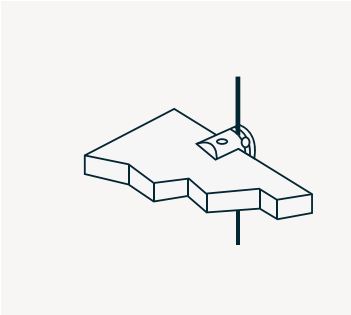
Spaceline Shelf Grip, for fixing shelves Recommended shelf thickness: 6mm to 8mm.

Cable spacing: shelf width + 19mm.

Brass with Satin Nickel finish.

SPACELINE
SHELF GRIP LARGE





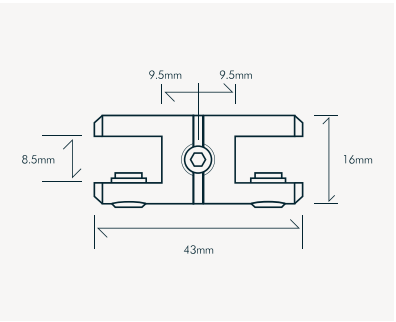
MC-SLS20

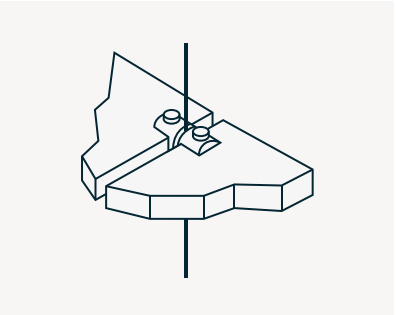
Spaceline Shelf Grip Large, for fixing large shelves. Recommended shelf thickness: 6mm to 10mm.

Cable spacing: shelf width + 19mm.

Brass with Satin Nickel finish.

SPACELINE
DOUBLE SHELF GRIP





MC-SLS3

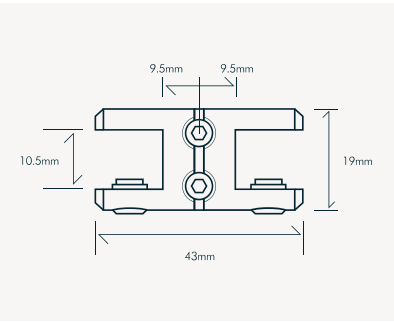
Spaceline Double Shelf Grip, for fixing shelves. Recommended shelf thickness: 6mm to 8mm.

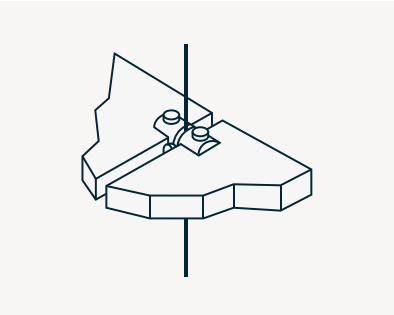
Cable spacing: shelf width + 19mm.

Brass with Satin Nickel finish.

SPACELINE
CABLE SYSTEMS

SPACELINE
DOUBLE SHELF GRIP LARGE





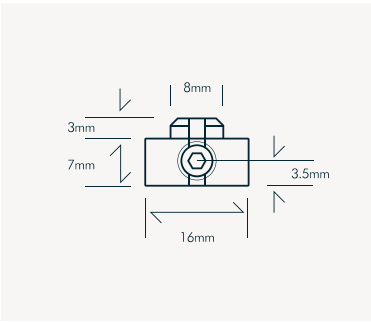
MC-SLS30

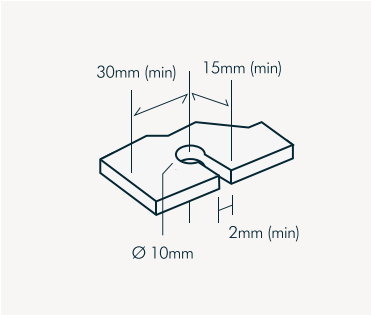
Spaceline Double Shelf Grip Large, for fixing large shelves. Recommended shelf thickness 6mm to 10mm.

Cable spacing: shelf width + 19mm.

Brass with Satin Nickel finish.

SPACELINE
SHELF SUPPORT





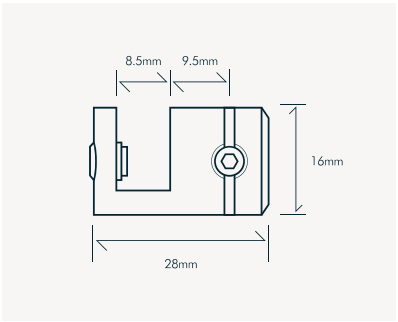
MC-SLS1

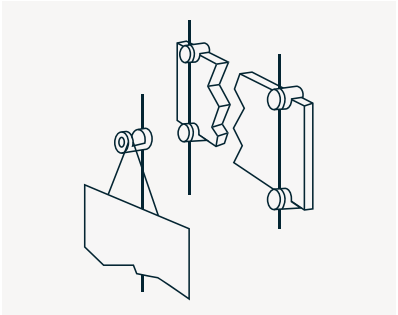
Spaceline Shelf Support, for glass up to 10mm thick or other materials in any thickness. Requires hole and optional slot.

Drill hole: Ø 10mm min.
Slot width :2mm.

Brass with Satin Nickel finish.

SPACELINE
PANEL GRIP





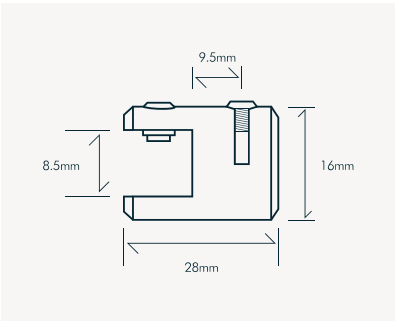
MC-SLS5

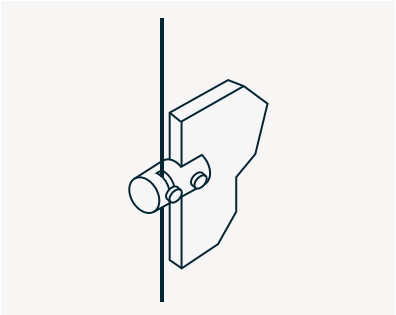
Spaceline Panel Grip, for fixing panels top and bottom. Recommended panel thickness: 3mm to 8mm.

Brass with Satin Nickel finish.

SPACELINE
CABLE SYSTEMS

SPACELINE
PANEL GRIP





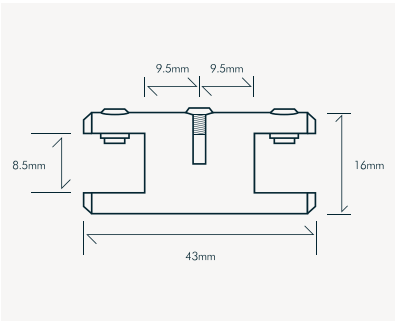
MC-SLS4

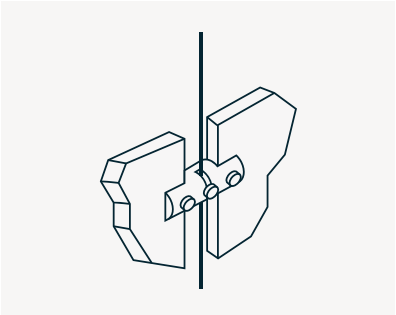
Spaceline Panel Grip, for fixing panels Recommended panel thickness: 3mm to 8mm.

Cable spacing: shelf width + 19mm.

Brass with Satin Nickel finish.

SPACELINE
DOUBLE PANEL GRIP





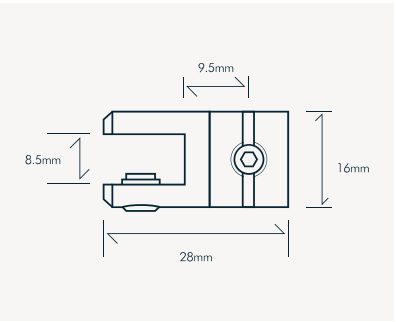
MC-SLS7

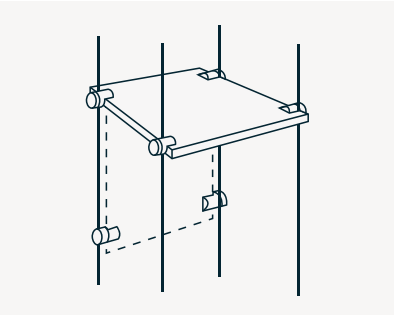
Spaceline Double Panel Grip, for fixing two panels either side of cable. Recommended panel thickness: 3mm to 8mm.

Cable spacing: shelf width + 19mm.

Brass with Satin Nickel finish.

SPACELINE
PIVOTING GRIP





MC-SLS8

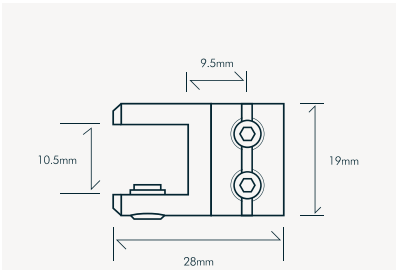
Spaceline Pivoting Grip, for fixing panels or shelves. Recommended panel/shelf thickness: 3mm to 8mm.

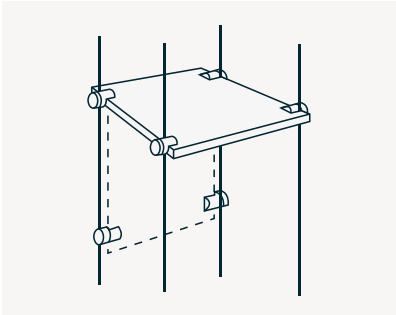
Cable spacing: shelf/panel width + 19mm.

Brass with Satin Nickel finish.

SPACELINE
CABLE SYSTEMS

SPACELINE PIVOTING GRIP LARGE





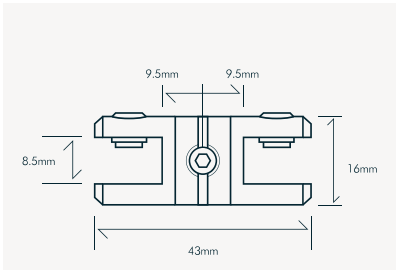
MC-SLS80

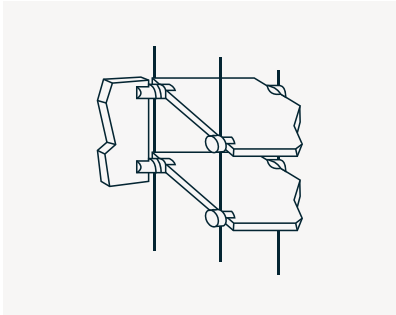
Spaceline Pivoting Grip large, for fixing panels or shelves. Recommended panel/shelf thickness: 5mm to 10mm.

Cable spacing: panel/shelf width + 19mm.

Brass with Satin Nickel finish.

SPACELINE DOUBLE PIVOTING GRIP





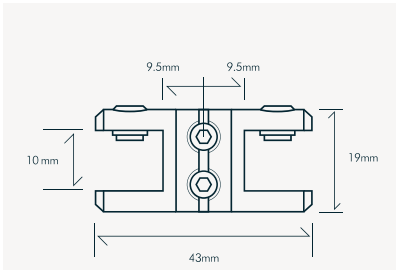
MC-SLS9

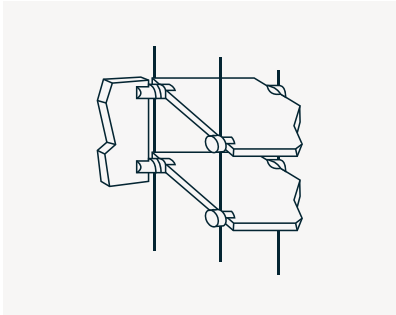
Spaceline Double Pivoting Grip, for fixing panels or shelves. Recommended panel thickness: 3mm to 8mm.

Cable spacing: panel/shelf width + 19mm.

Brass with Satin Nickel finish.

SPACELINE DOUBLE PIVOTING GRIP LARGE





MC-SLS90

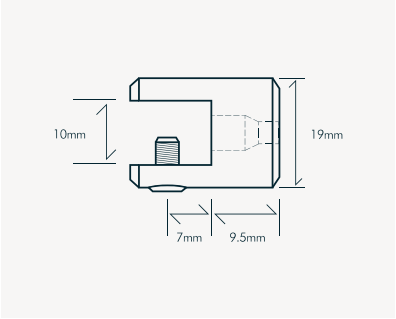
Spaceline Double Pivoting Grip, for fixing panels or shelves. Recommended panel/shelf thickness: 5mm to 10mm.

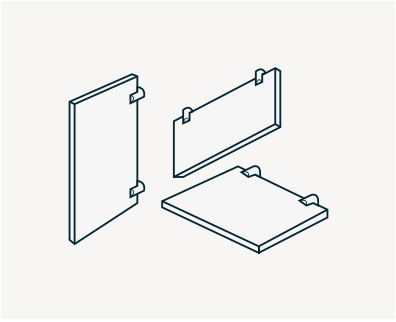
Cable spacing: panel/shelf width + 19mm.

Brass with Satin Nickel finish.

SPACELINE
CABLE SYSTEMS

SPACELINE
WALL MOUNT SHELF / PANEL GRIP



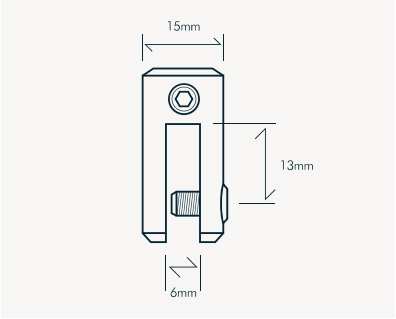


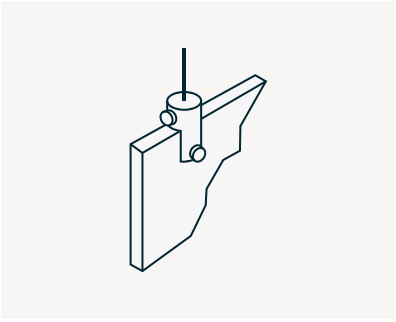
MC-SLT3

Spaceline Wall Mount Panel or Shelf Grip, for fixing shelves or panels to the wall or ceiling. Recommended panel/shelf thickness: 6mm to 10mm.

Brass with Satin Nickel finish.

SPACELINE
VERTICAL GRIP



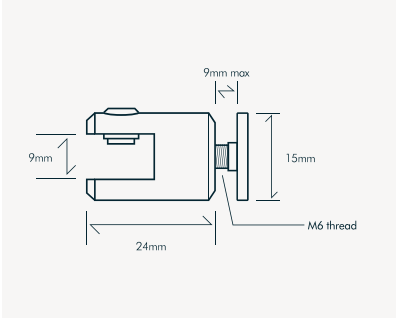


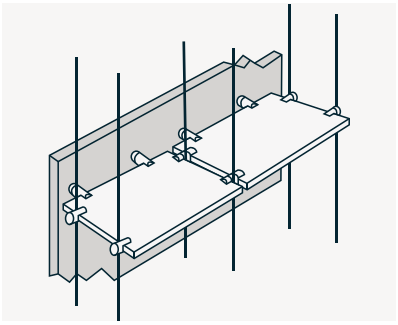
MC-SLT1

Spaceline Vertical Grip, for secure fixing. Use a 7mm diameter hole 13mm from panel edge. Recommended panel thickness: 3mm to 6mm.

Brass with Satin Nickel finish.

SPACELINE
SHELF STABILISER





MC-SLT2

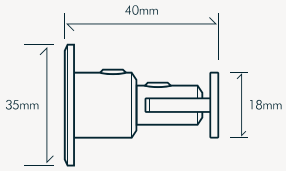
Spaceline Shelf Stabiliser, for fixing shelf. Recommended panel thickness: 6mm to 8mm. Can also be used as a single shelf support in a display unit.

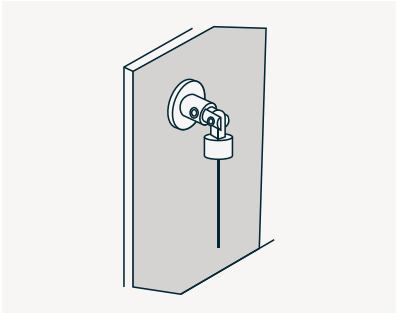
Distance from wall: 16mm-25mm.

Brass with Satin Nickel finish.

SPACELINE
CABLE SYSTEMS

SPACELINE
TOP SWIVELLING
WALL CONNECTOR



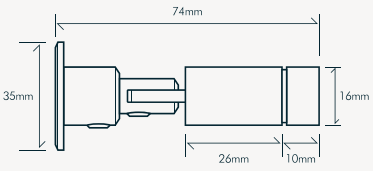


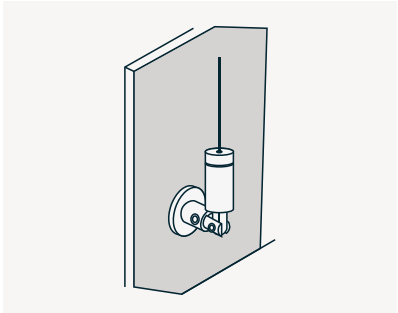
MC-SLWCT

Spaceline Top Swivelling Wall Connector to mount cable to wall.

Brass with Satin Nickel finish.

SPACELINE
BOTTOM SWIVELLING
WALL CONNECTOR





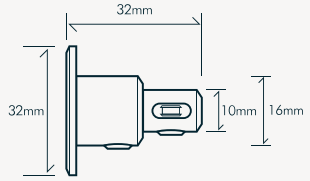
MC-SLWCB

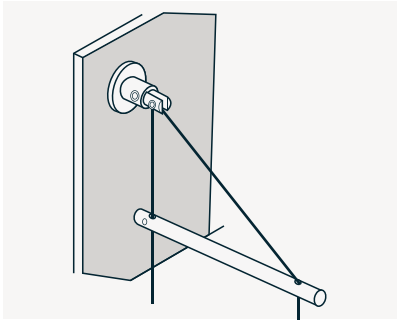
Spaceline Bottom Swivelling Wall Connector mounts cable to wall.

Recommended cable distance off wall: 22mm.

Brass with Satin Nickel finish.

SPACELINE
WALL CONNECTOR + ROD





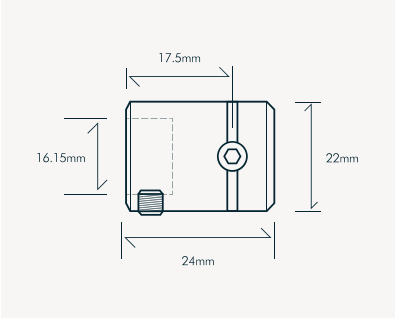
MC-SLWC

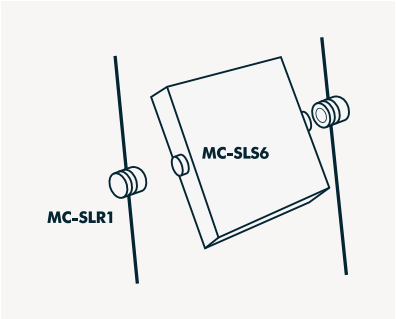
Spaceline Wall Connector + Rod to mount cable to wall for shelving. Supplied with 300mm spacer bar.

Brass with Satin Nickel finish.

SPACELINE CABLE SYSTEMS

SPACELINE ADAPTOR





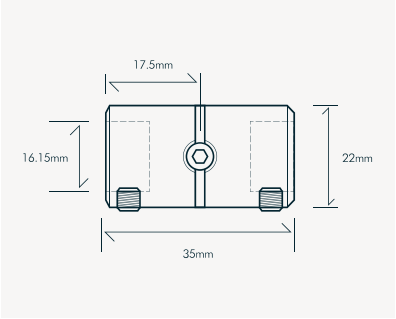
MC-SLR1

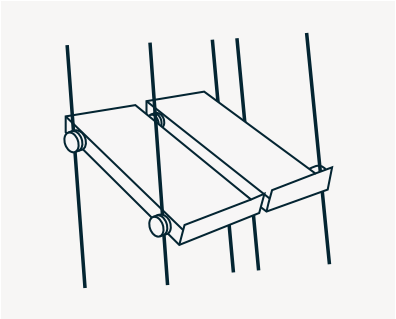
Spaceline Adaptor to use with MC-SLS6. Unlimited panel thickness.

Cable spacing: shelf width + 35mm.

Brass with Satin Nickel finish.

SPACELINE DOUBLE ADAPTOR





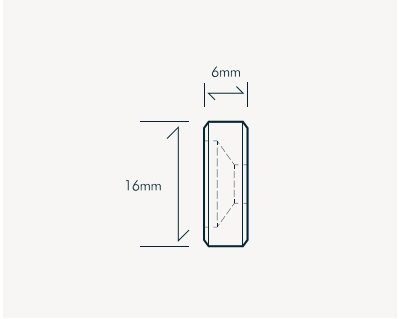
MC-SLR2

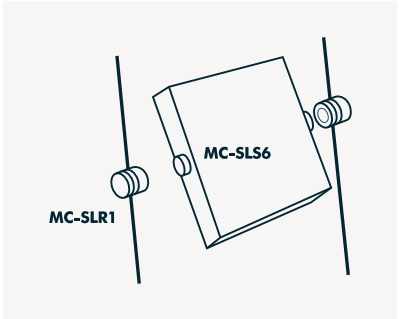
Spaceline Double Adaptor to use with MC-SLS6. Unlimited panel thickness.

Cable spacing: panel width + 35mm.

Brass with Satin Nickel finish.

SPACELINE ADAPTOR RING





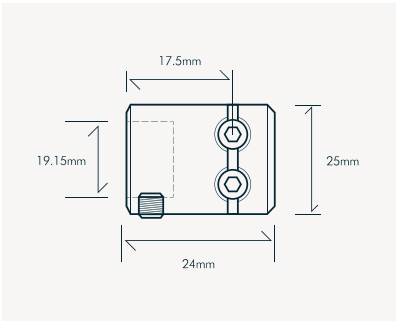
MC-SLS6

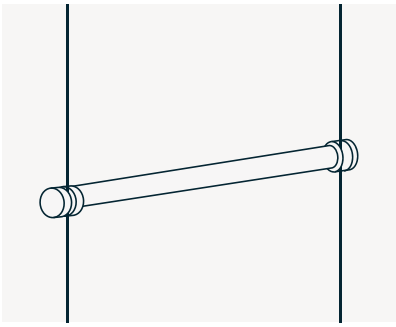
Spaceline Adaptor Ring, allows fixing to timber panels or shelves. Use in combination with MC-SLR1, MC-SLR2 or MC-SLR4.

Brass with Satin Nickel finish.

SPACELINE
CABLE SYSTEMS

SPACELINE
RAIL ADAPTOR





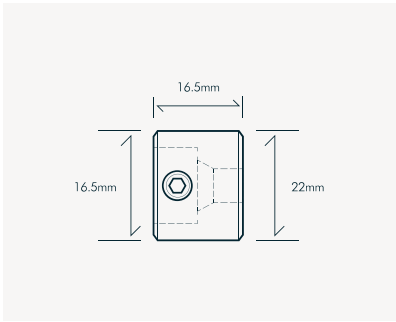
MC-SLR3

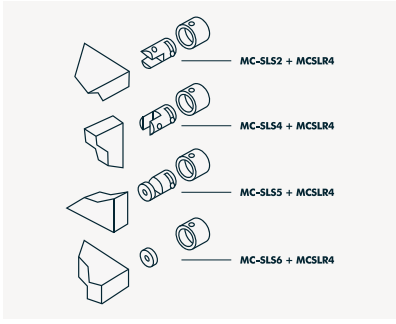
Spaceline Rail Adaptor to use with 19mm diameter hangrail. Recommended maximum span 1000mm between cables.

Cable spacing:tube length +19mm.

Brass with Satin Nickel finish.

SPACELINE
WALL MOUNT ADAPTOR





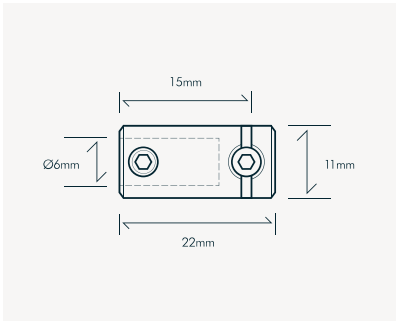
MC-SLR4

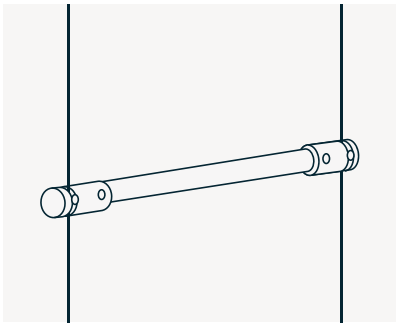
Spaceline Wall Mount Adaptor to combine with:

1. MC-SLS2 or MC-SLS4 for panel/shelf perpendicular to wall. Max. thickness 8mm.
2. MC- SLS5 to use with sign panel parallel to wall. Max. thickness 8mm panel.
3. MC-SLS6 to use with timber shelf.

Brass with Satin Nickel finish.

SPACELINE
ROD CROSS CONNECTOR





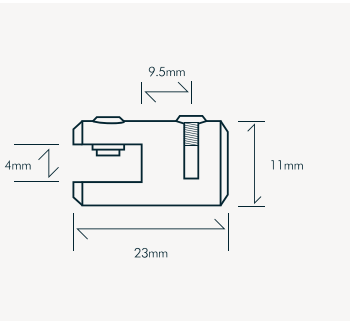
MC-SLR5

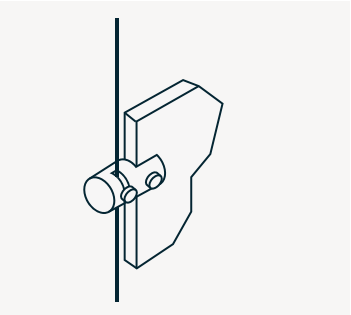
Spaceline Rod Cross Connector allows suspension of 6mm diameter rod between two cables. Recommended max. span: 500mm between cables.

Brass with Satin Nickel finish.

SPACELINE
CABLE SYSTEMS

SPACELINE
MINI PANEL GRIP





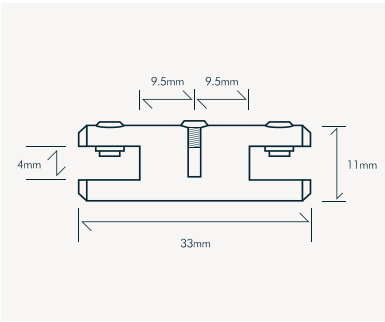
MC-SLS04

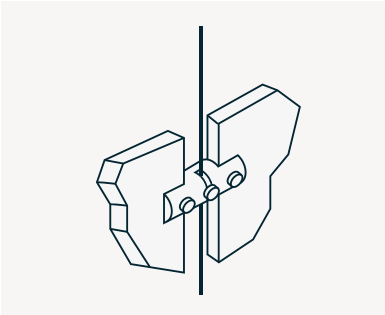
Spaceline Mini Panel Grip. Use to create a finer slimline version of the MC-SLS4. Recommended panel thickness: 1.5mm to 4mm.

Cable spacing: panel width + 19mm.

Brass with Satin Nickel finish.

SPACELINE
MINI DOUBLE PANEL GRIP





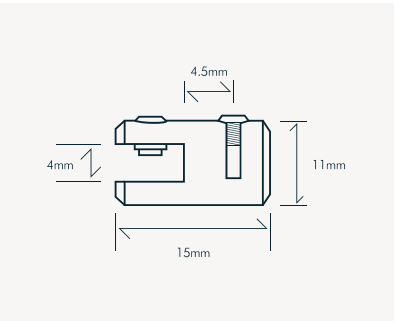
MC-SLS07

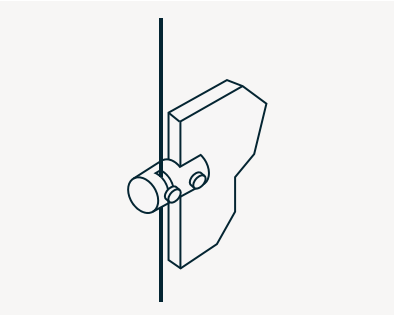
Spaceline Double Mini Panel Grip. Use to create a finer slimline version of the MC-SLS7. Recommended panel thickness: 1.5mm to 4mm.

Cable spacing: panel width + 19mm.

Brass with Satin Nickel finish.

SPACELINE
SUPER MINI PANEL GRIP





MC-SLS004

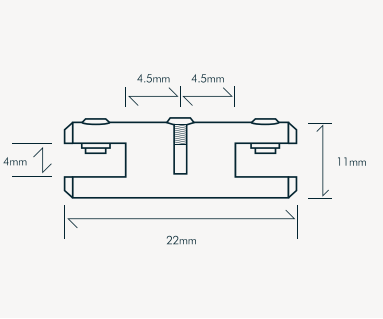
Spaceline Super Mini Panel Grip. Use to create a super slimline version of the MC-SLS4 and MC-SLS04. Recommended panel thickness: 1.5mm to 4mm.

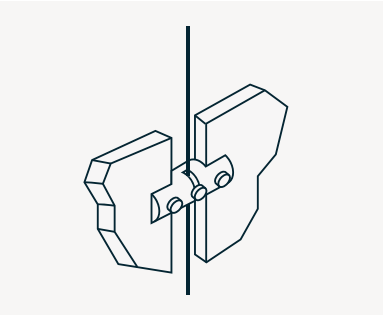
Cable spacing: panel width + 9mm.

Brass with Satin Nickel finish.

SPACELINE
CABLE SYSTEMS

SPACELINE
SUPER MINI DOUBLE
PANEL GRIP





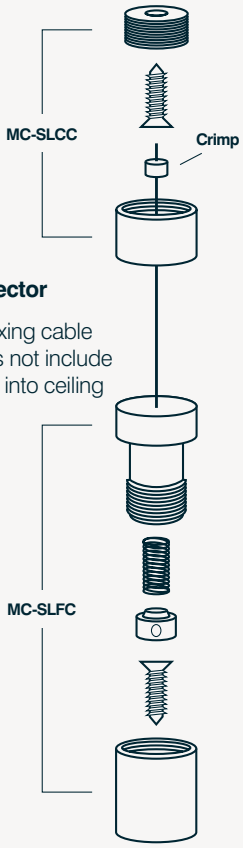
MC-SLS007

Spaceline Super Double Mini Panel Grip. Use to create a super slimline version of the MC-SLS7 and MC-SLS07. Recommended panel thickness: 1.5mm to 4mm.

Cable spacing: panel width + 9mm.

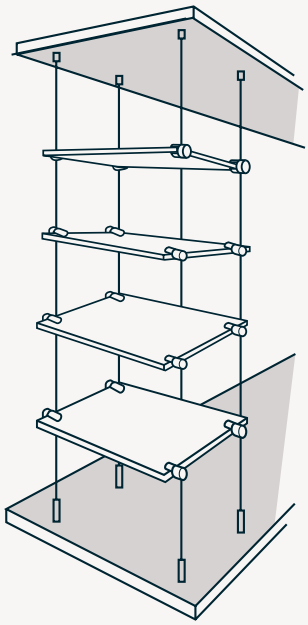
Brass with Satin Nickel finish.

SPACELINE CABLE
FLOOR TO CEILING INSTALLATION

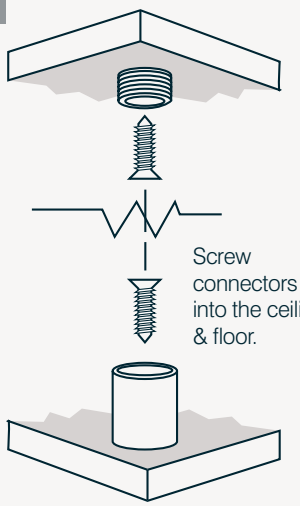


MC-SLCC
Ceiling Connector

Assembly for fixing cable to ceiling. Does not include screw for fixing into ceiling or floor.

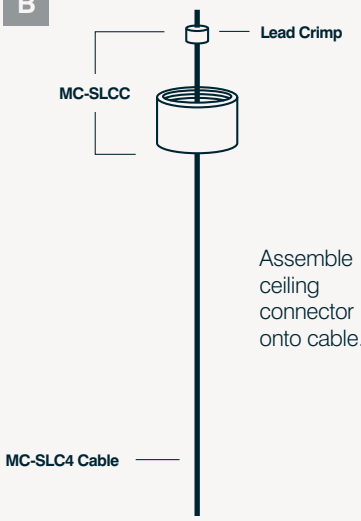


A



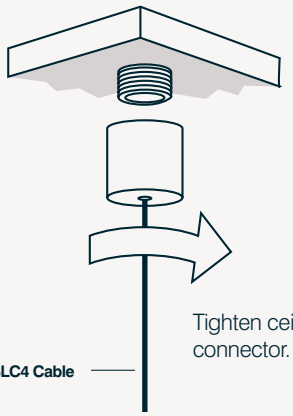
Screw connectors into the ceiling & floor.

B



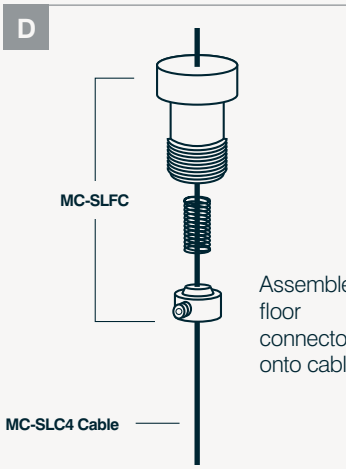
Assemble ceiling connector onto cable.

C



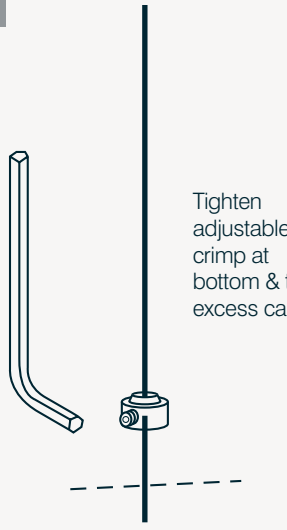
Tighten ceiling connector.

D



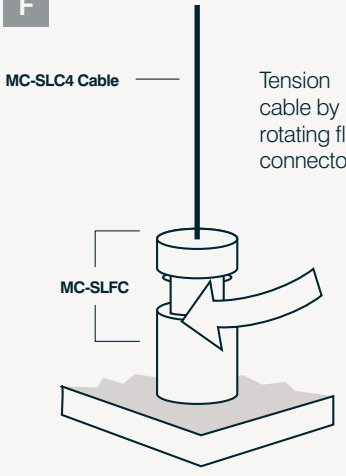
Assemble floor connector onto cable.

E



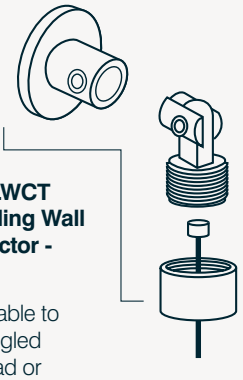
Tighten adjustable crimp at bottom & trim excess cable.

F



Tension cable by rotating floor connector.

SPACELINE CABLE WALL MOUNT INSTALLATION

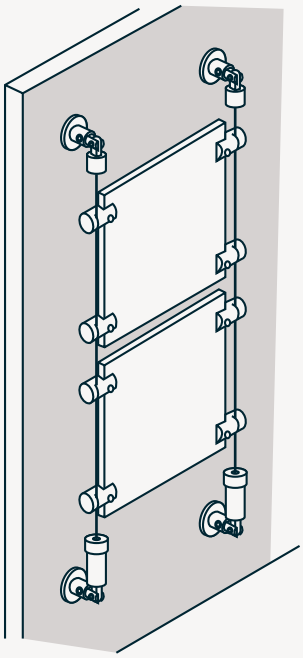


MC-SLWCT Swivelling Wall Connector - Upper

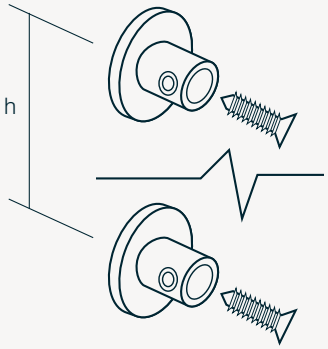
Fixes cable to wall, angled bulkhead or ceiling.

MC-SLWCB Swivelling Wall Connector - Lower

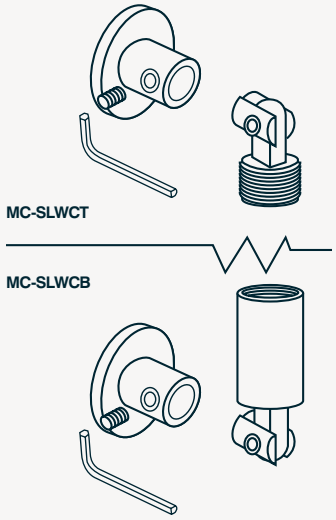
Fixes cable to wall or floor.



A Screw wall connectors into the wall.

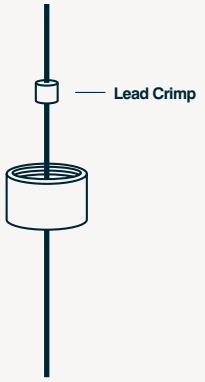


B Assemble wall connectors.



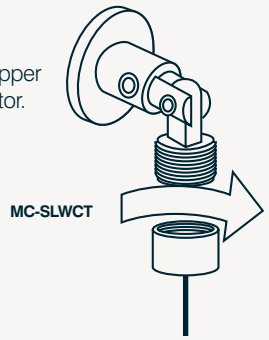
C

Assemble ceiling connector onto cable.



D

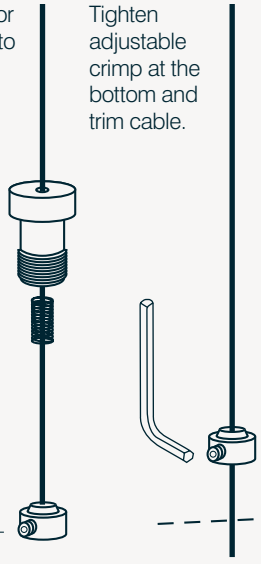
Assemble upper wall connector.



E

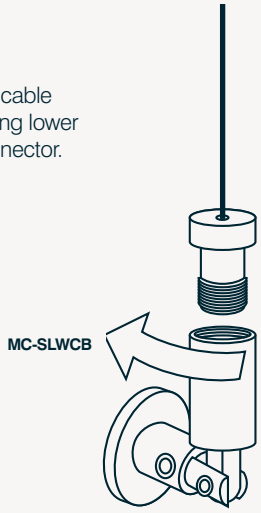
Assemble floor connector onto cable.

Tighten adjustable crimp at the bottom and trim cable.

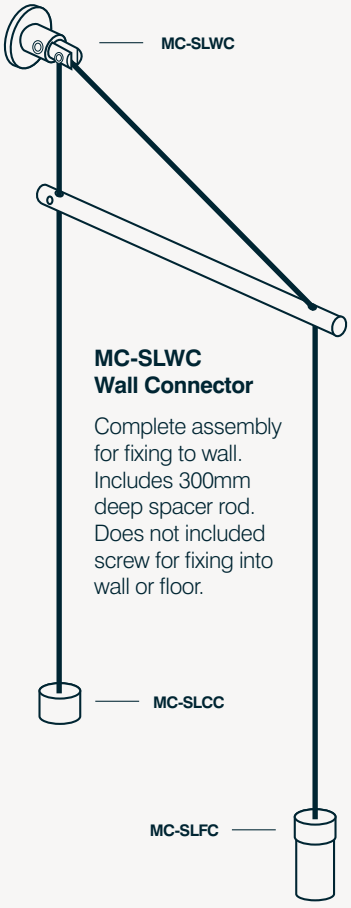


F

Tension cable by rotating lower wall connector.

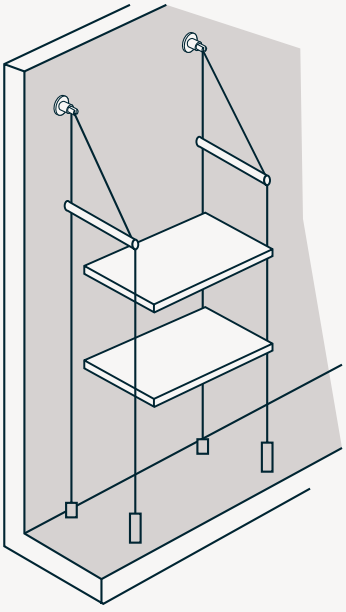


SPACELINE CABLE
WALL TO FLOOR INSTALLATION



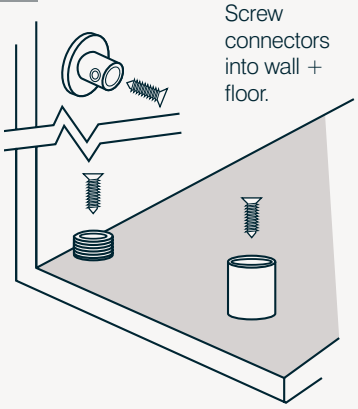
MC-SLWC
Wall Connector

Complete assembly for fixing to wall. Includes 300mm deep spacer rod. Does not included screw for fixing into wall or floor.

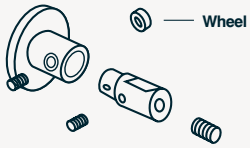


A

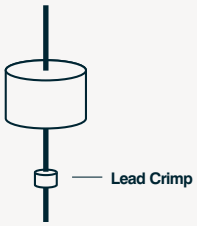
Screw connectors into wall + floor.



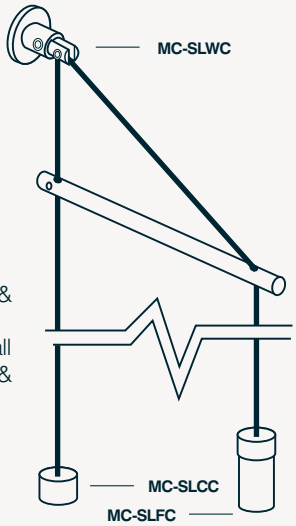
B



Assemble wall connector & feed cable through ceiling connector.



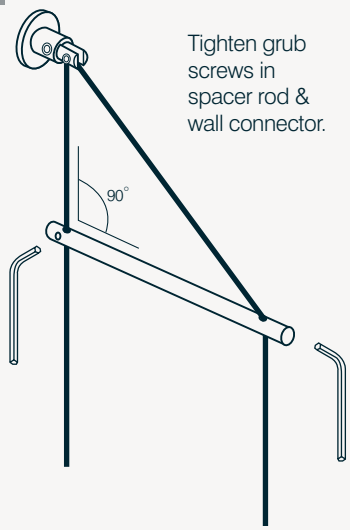
C



Assemble ceiling connector & feed cable through wall connector & spacer rod

D

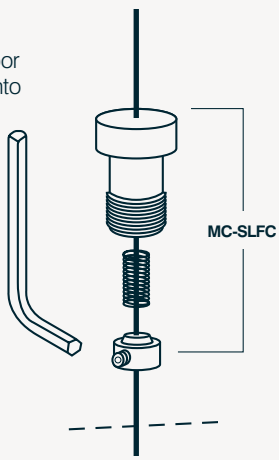
Tighten grub screws in spacer rod & wall connector.



E

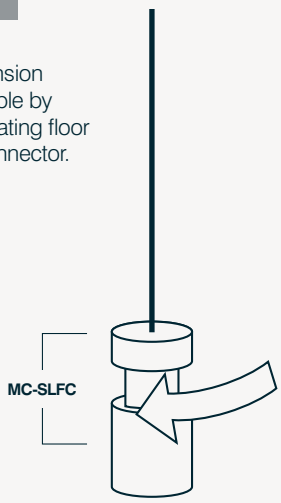
Assemble floor connector onto cable.

Tighten adjustable crimp at bottom & trim excess cable.



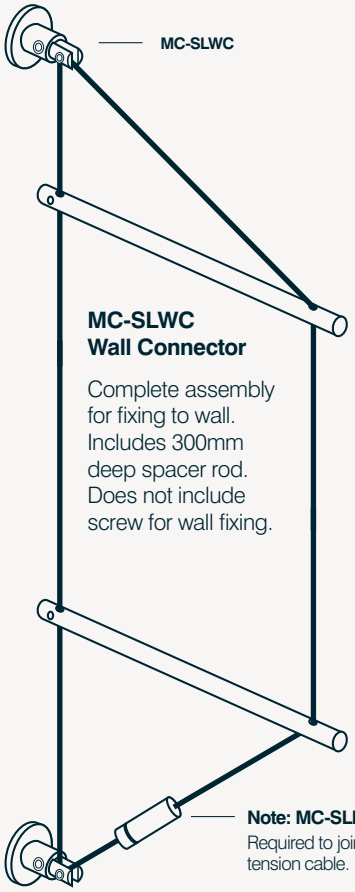
F

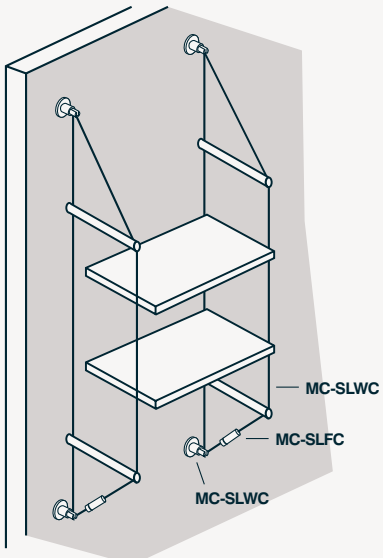
Tension cable by rotating floor connector.



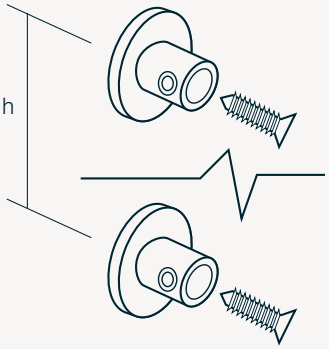
02.2023

SPACELINE CABLE
WALL TO WALL INSTALLATION

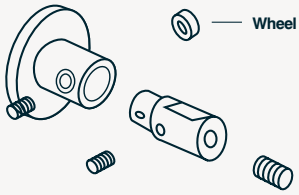




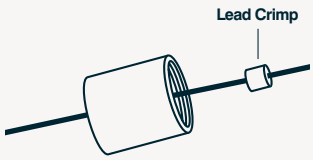
A Screw wall connectors into the wall.



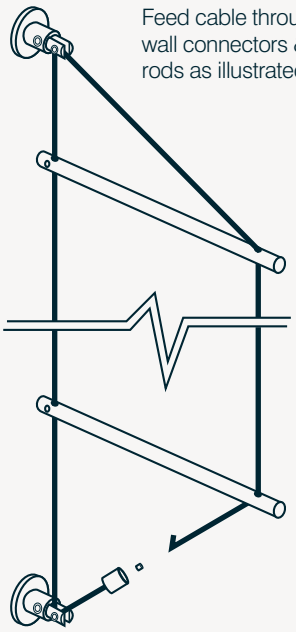
B Assemble wall connectors.



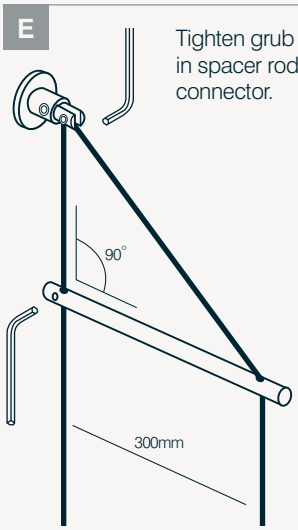
C Fit floor connector barrel onto cable.



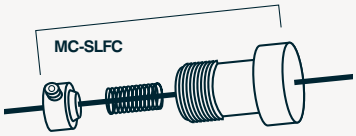
D Feed cable through wall connectors &+ rods as illustrated.



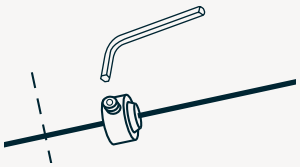
E Tighten grub screws in spacer rods & wall connector.



F Assemble floor connector components onto cable.



G Tighten adjustable crimp at bottom & trim excess cable.



H Tension cable by rotating floor connector.

ROD
PANEL GRIP

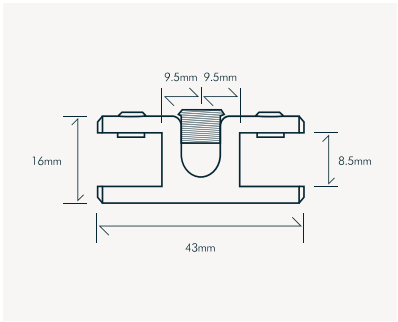
MC-RS41

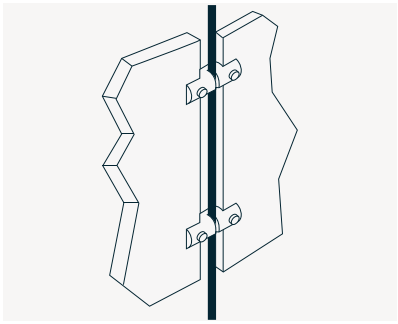
Rod Panel Grip, for fixing panels. Recommended panel thickness: 3mm to 8mm.

Rod spacing panel width + 19mm.

Brass with Satin Nickel finish.

ROD
DOUBLE PANEL GRIP





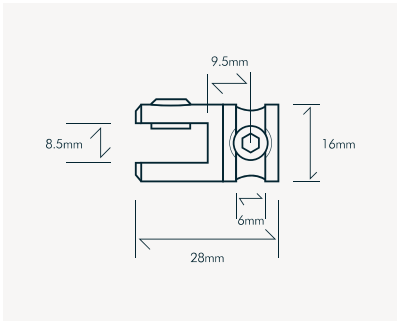
MC-RS51

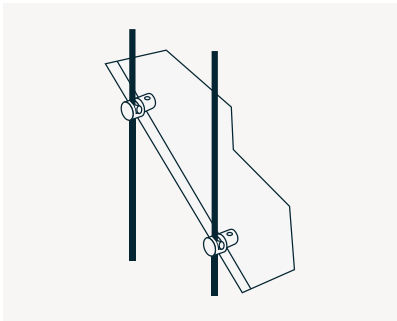
Rod Double Panel Grip, for fixing two panels either side of rod. Recommended panel thickness: 3mm to 8mm.

Rod spacing: shelf width + 19mm.

Brass with Satin Nickel finish.

ROD
PIVOTING GRIP





MC-RPSS21

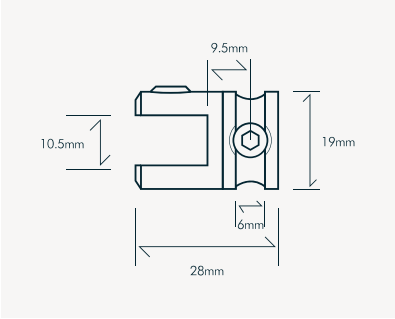
Rod Pivoting Grip, for fixing panels or shelves. Recommended shelf thickness: 6mm to 8mm.

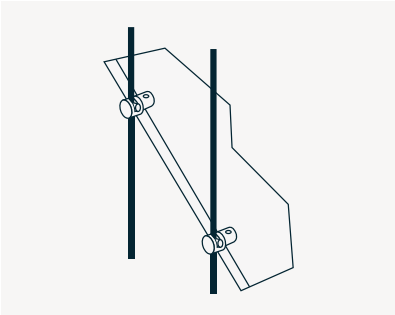
Rod spacing: shelf width + 19mm.

Brass with Satin Nickel finish.

SPACELINE
ROD SYSTEMS

ROD
PIVOTING GRIP LARGE





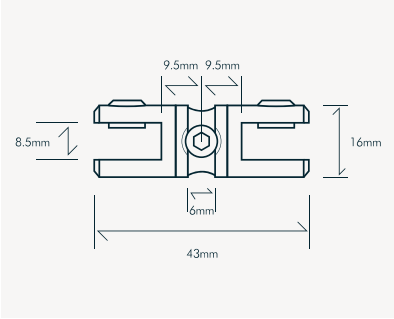
MC-RPSL22

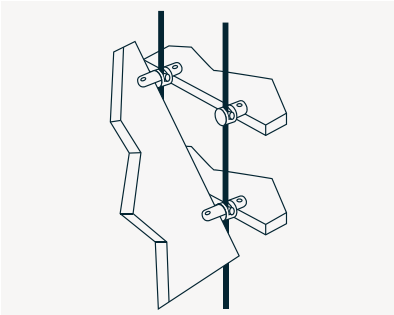
Rod Pivoting Grip Large, for fixing panels or shelves. Recommended shelf thickness: 6mm to 10mm.

Rod spacing: shelf/panel width + 19mm.

Brass with Satin Nickel finish.

ROD
DOUBLE PIVOTING GRIP





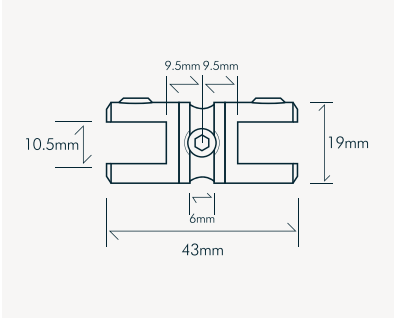
MC-RPDS31

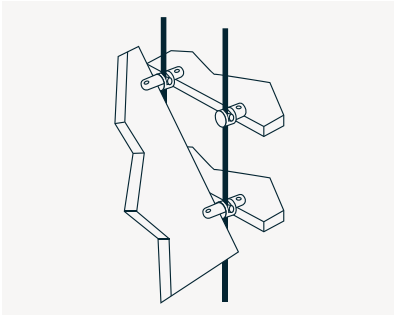
Rod Double Pivoting Grip, for fixing panels or shelves. Recommended shelf / panel thickness: 6mm to 8mm.

Recommended max. rod spacing: shelf/panel width + 19mm.

Brass with Satin Nickel finish.

ROD
DOUBLE PIVOTING GRIP LARGE





MC-RPDL32

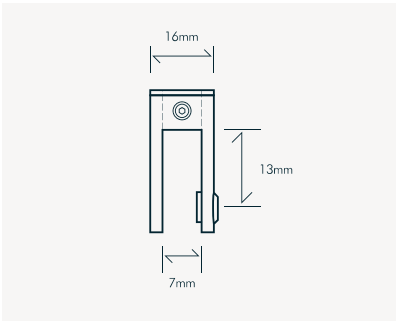
Rod Double Pivoting Grip Large, for fixing panels or shelves. Recommended shelf / panel thickness: 6mm to 10mm.

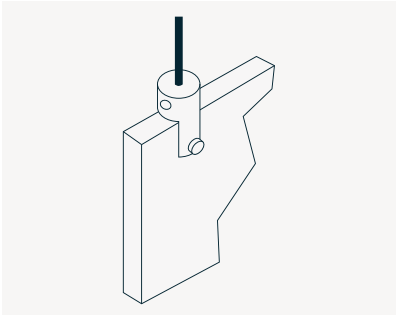
Recommended max rod spacing shelf / panel width + 19mm.

Brass with Satin Nickel finish.

SPACELINE
ROD SYSTEMS

ROD
VERTICAL GRIP



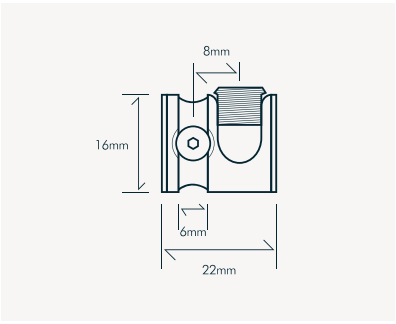


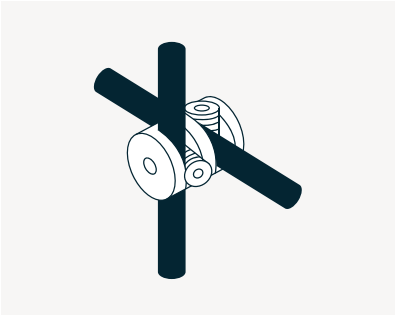
MC-RH11

Rod Vertical Grip, for secure fixing. Use a 7mm diameter hole 13mm from panel edge. Recommended panel thickness 3mm to 6mm.

Brass with Satin Nickel finish.

ROD
X CONNECTOR



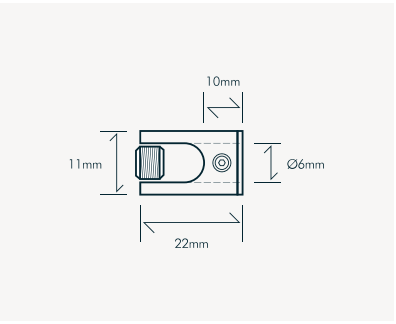


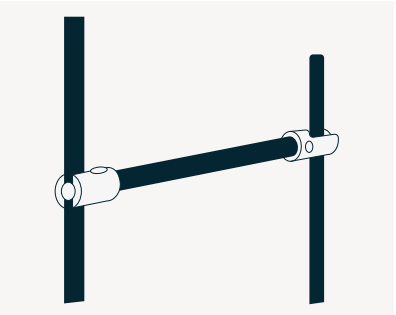
MC-RX1

Rod X Connector. Enables horizontal lengths to be attached to vertical rod drops.

Brass with Satin Nickel finish.

ROD
CROSS CONNECTOR





MC-RX2

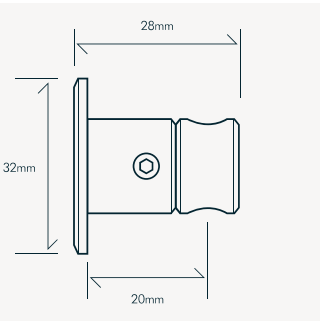
Rod Cross Connector. Enables rod horizontal lengths to be attached between vertical rod drops.

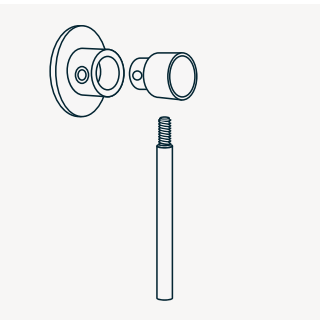
Max recommended horizontal span 500mm between vertical drops.

Brass with Satin Nickel finish.

SPACELINE
ROD SYSTEMS

ROD
UPPER WALL MOUNT



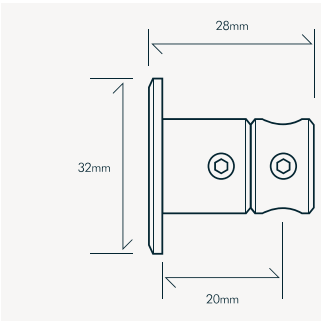


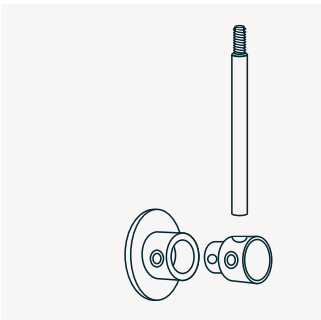
MC-RWMT

Rod Upper Wall Mount Bracket, for fixing rod to upper wall.

Brass with Satin Nickel finish.

ROD
LOWER WALL MOUNT
BRACKET





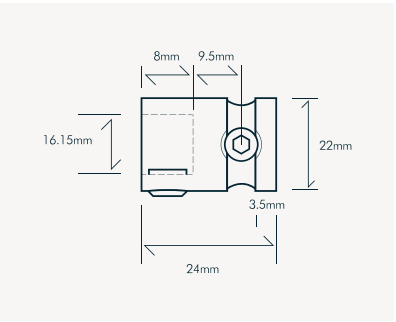
MC-RWMB

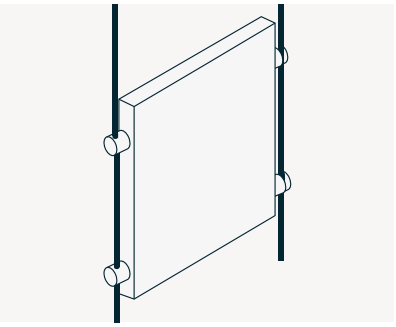
Rod Lower Wall Mount Bracket for fixing rod to lower wall. Can also be used horizontally.

Maximum recommended horizontal span: 500mm between wall mounts.

Brass with Satin Nickel finish.

ROD
ADAPTOR





MC-RR11

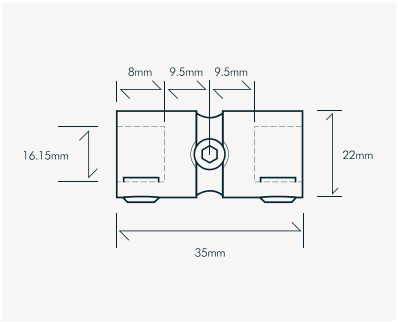
Rod Adaptor. Used in combination with MC-RR31 to hold panels or hangrails.

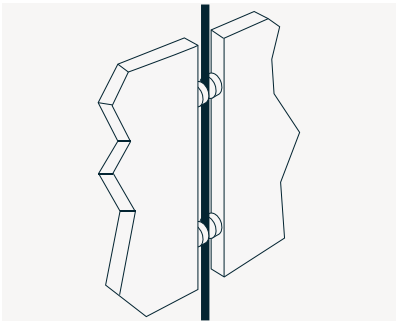
Rod spacing: panel width + 35mm.
Size of hangrail: Ø 6mm.

Brass with Satin Nickel finish.

SPACELINE
ROD SYSTEMS

ROD
DOUBLE ADAPTOR





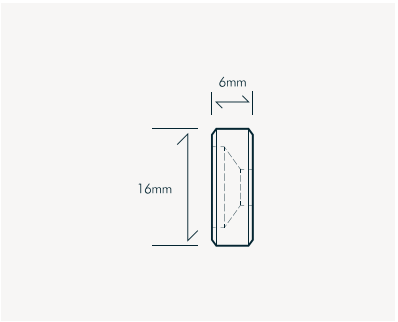
MC-RR21

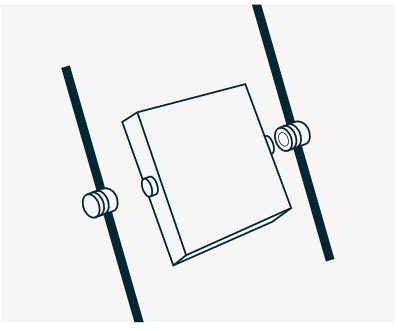
Rod Double Adaptor. Used in conjunction with MC-RR31 to hold panels or hangrails.

Rod spacing: panel width + 35mm.
Size of hangrail: Ø 16mm.
Panel thickness: unlimited.

Brass with Satin Nickel finish.

ROD
ADAPTOR RING





MC-RR31

Rod Adaptor Ring allows fixing to timber shelf or panel. To be used in conjunction with MC-RR11 or MC-RR21.

Brass with Satin Nickel finish.

ROD
SPECTACLE HOLDER

MC-RSH

Rod Spectacle Holder, snap fits directly into rod.

Overall Width 84mm.
Internal channel width 11mm.

Clear Plastic finish.

SPACELINE
ROD SYSTEMS

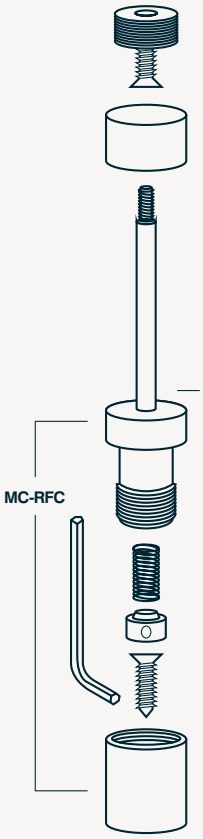
ROD
SPECTACLE MOUNT

MC-RGS

Rod Spectacle Mount attaches to rod to create optical displays. The rod spectacle holder allows merchandising of glasses with the arms open.

Chrome finish.

SPACELINE
ROD SYSTEM INSTALLATION

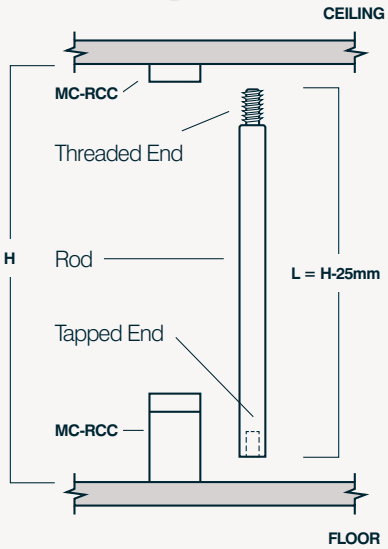


MC-RCC
Ceiling Connector

For fixing rod to ceiling. Not including screws for fixing.

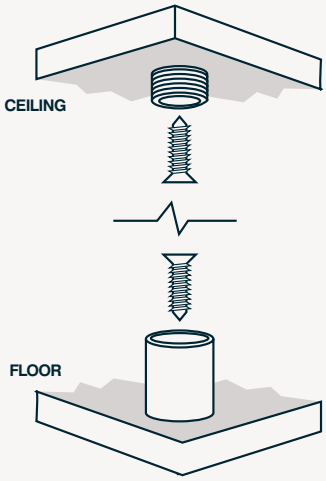
MC-RFC
Floor Connector

For fixing rod to floors. Includes allen key. Not including screws for fixing.

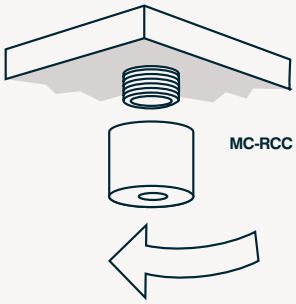


Rod is to be supplied only in uncut lengths of 500m, 1000mm + 1500mm long. All rod lengths have a threaded section at the top + a tapped section at the bottom. Rod can be cut to size onsite using a hacksaw but must be trimmed off the lowest tapped end.

A Screw connectors into place.

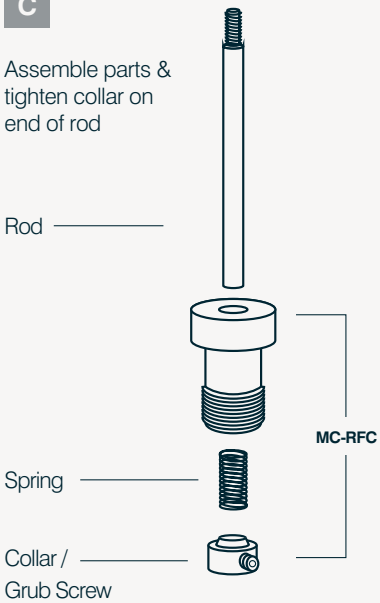


B Assemble ceiling connector.

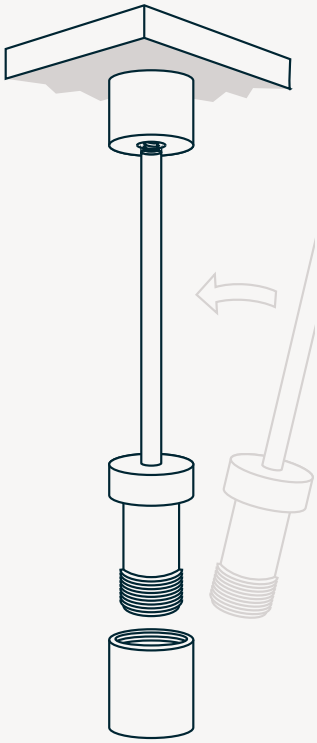


C

Assemble parts & tighten collar on end of rod

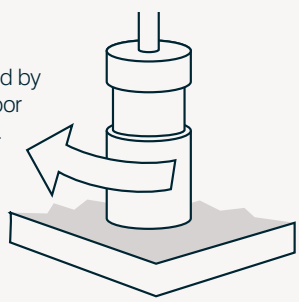


D Insert rod into position & screw into ceiling connector.



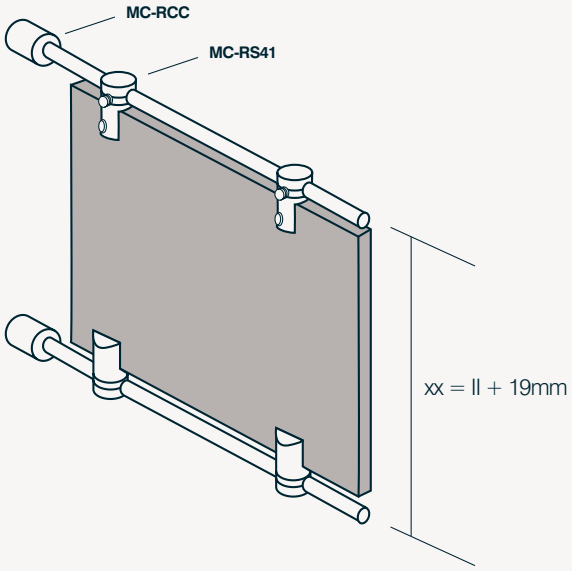
E

Tension rod by rotating floor connector.

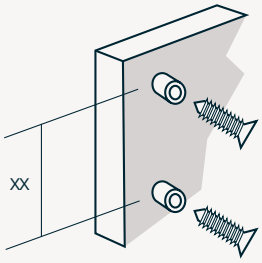


SPACELINE
ROD SYSTEM INSTALLATION

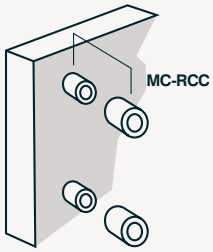
WALL SIGN MOUNT



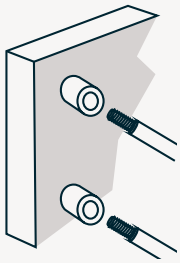
A Screw connectors into place.



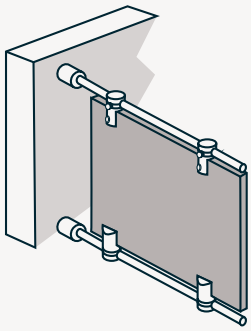
B Assemble ceiling connector.



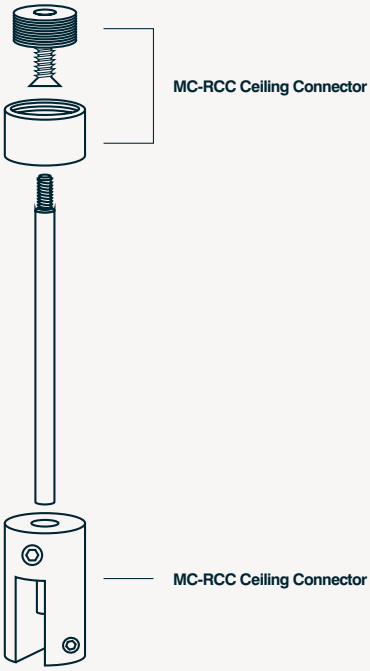
C Screw rods into ceiling connectors.



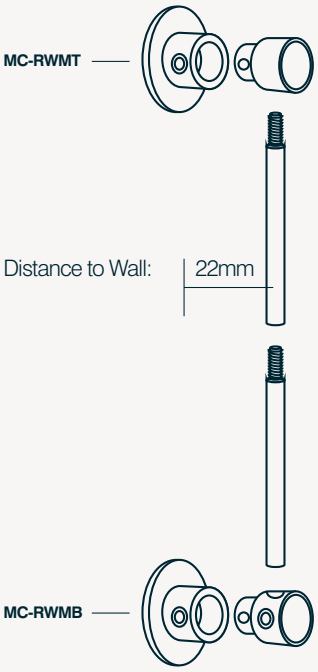
D Assemble panel grips & panel.



SIGN HANGING



WALL MOUNT



MC-RWMT Wall Mount Bracket - Upper

Fixes rod to upper wall.

MC-RWMB Wall Mount Bracket - Lower

Fixes rod to lower wall.
